

Shape Your Future as a Visionary

7 Months | Live Online Sessions | 2-day Campus Immersion

BATCH 2

IIT Delhi is Ranked # 4 amongst Management Colleges in India (NIRF 2024)

Programme offered by Continuing Education Programme (CEP), IIT Delhi

Programme Overview

In dynamic times, smart businesses reinvent to navigate change successfully. In PwC's 27th Annual CEO Survey, Indian CEOs outlined their top three reinvention priorities to create and deliver value. 'Adopting new technologies' came out on top. As per EY's CEO Survey, Indian leaders are implementing AI technologies rapidly into their business agenda with **70% of CEOs planning increased spending on new tech and AI.**

Visionary business leaders are going a step further. They are taking proactive steps to create long-term competitive advantage through the strategic use of new technologies. Whether it's using blockchain to digitise supply chains, quantum computing to make better predictions, or generative (gen) AI to fast-track the next big innovation, these leaders are taking giant steps.

Gen AI, in particular, has captivated the imagination of Indian CEOs. Close to 50% of them believe gen AI will increase revenue, and 71% believe it will improve their employees' efficiency. According to a recent Goldman Sachs report, gen AI has the potential to increase global GDP by 7% and boost productivity growth by 1.5 percentage points over a 10-year period.

With technology disrupting every facet of how we create value today, 'tech leadership', once an aspiration, has quickly emerged as a critical success factor for growth, efficiency, and customer experience. In fact, one might argue that today, 'tech leadership' is almost synonymous with 'business leadership'. They are two sides of the same coin.

To complement this exciting paradigm shift, **IIT Delhi has launched its Advanced Programme in Technology and AI Leadership.** This programme will equip you with the technology strategy, innovation, and leadership skills to thrive in today's dynamic landscape. The curriculum empowers you to become a visionary tech leader, capable of driving successful technology initiatives and navigating the complexities of an ever-evolving environment. Whether you're a tech pioneer, strategist or entrepreneur, this programme will strengthen your ability to leverage technology as a catalyst for innovation. Join and gain the edge you need to succeed in the era of digital disruption.

Starts on:
June 28, 2025

Duration:
7 Months

Programme fee:
INR 1,69,000 + GST

IIT Delhi is Ranked # 4 amongst Management Colleges in India (NIRF 2024)

Programme offered by Continuing Education Programme (CEP), IIT Delhi

Why Advanced Programme in Technology and AI Leadership?

- **Master a comprehensive approach to technology leadership** with a focus on AI, ML, digital transformation, blockchain, and quantum computing.
- **Magnify global perspectives and networks** with erudite, ambitious peers from various domains.
- **Make deep industry impact** with learning that's rooted in real-world case studies and exposure to 10+ industry expert sessions.

Programme Highlights

100% live delivery by renowned IIT Delhi instructors

A guided capstone project by IIT Delhi faculty

Hands-on guidance through no-code tools to accelerate tech agility

A two-day immersion at the IIT Delhi campus*

Access to tried and tested 'practitioner insights' via 10+ sessions by tech leaders

Sharp industry-readiness with real-world case studies

Note:

*IIT Delhi will not provide accommodation during the campus visit. Learners shall have to arrange for stay on their own.

Who Is This Programme For?

Whether you're an aspiring tech leader or a functional manager, this programme's focus on technology executive development will support the evolving role of technology strategy and management in modern-day business.

- **New and emerging tech leaders and IT decision-makers** seeking to hone their technology management skills and strategic acumen for driving successful and impactful digital transformations
- **Functional managers in core business functions** who want to embrace technology to drive up efficiency and innovation and aspire to bigger, more powerful leadership positions and global roles
- **Business consultants, analysts, and tech entrepreneurs** who want to acquire advanced skills to reimagine AI strategy, capture new markets, disrupt business models, and build a stronger, more relevant and agile brand with their customers

“If you don’t innovate fast, disrupt your industry, disrupt yourself, you’ll be left behind.”

John Chambers

Chairman Emeritus of Cisco and CEO of JC2 Ventures

Programme Coordinator

Prof. Arpan Kar is Professor in Information Systems in the Indian Institute of Technology Delhi. He has a joint appointment in the Department of Management Studies and School of Artificial Intelligence. He also supports multiple ministries and universities in advisory boards, assessment and faculty selection/assessment committees.

He works on adoption, usage, user experiences and impacts of emerging technologies such as Artificial Intelligence, Social Media, Digital platforms, Mobile apps, Metaverse and Blockchain. He has authored over 200 publications and edited 14 books. As per Google Scholar, he has over 22,000 citations and an H index of 65 (Feb 2024). He is currently Associate Editor in ABDC A ranked information systems journals like Communications of the AIS, Journal of Computer Information Systems, and Global Journal of Flexible Systems Management. Earlier, he was the Founding Editor in Chief of IJIM Data Insights, published by Elsevier. He also held editorial positions in Decision Support Systems (ABDC A*), International Journal of Information Management (ABDC A*), Information Systems Frontiers (A), Journal of Public Affairs (ABDC B), etc in the past.

He has undertaken over 40 sponsored projects and training programmes with organisations like BASF, PwC, Fidelity, EY, World Bank, Facebook, CIPPEC, Govt. of India (MEITY, DST, MoT, DRDO, MHRD, etc). He has generated revenue exceeding 200 Million INR. He received the Research Excellence Award by Clarivate Analytics. He is also BK Birla Distinguished Researcher Awardee. He received the Best Seller Award from Ivey / Harvard. He has received more than 20 other awards such as 3 IFIP Best Papers, ACM ICEGOV Research Award, Careers 360 Excellence Award, Tata Consultancy Services Gold Medal, Project Management Institute Award, AIMS Best Researcher, and IIT Delhi Teaching Excellence, etc.

Prof Arpan Kumar Kar

Endowed Chair Professor and Joint Faculty
Department of Management Studies and School of
Artificial Intelligence
Indian Institute of Technology Delhi.

Industry-Aligned Curriculum

This holistic curriculum has been designed to meet the multi-faceted demands of the new tech landscape. The goal is to enable participants to balance business vision, tech agility, customer values, operational rigor, and regulatory guardrails.

Module 01

Managing AI and ML for Business

- Overview of AI, ML and Data Science
- Computational approaches in Artificial Intelligence
- Deep Learning, Computer Vision, and Generative AI
- Hands-on in Machine Learning for Leaders
- Governance and Strategies for Managing Responsible AI

Module 02

Managing Digital Transformation and Strategic Alignment

- Technology and Business Strategy Fusion: Strategic Alignment
- Process of Digital Transformation
- Planning and executing AI-led Digital Transformation
- Enterprise Systems and Enterprise Architecture

Module 03

Organisational Leadership in the World of AI and DT

- Talent Acquisition, Development, and Retention Strategies in Technology Teams
- Change Management in Digital Transformation
- Organisation Culture Management and Skill Development in Technology-led Organisation
- Systems Thinking and Design Thinking

Module 04

Project Leadership and IT Project Management

- Software Project Management and Agile Paradigms
- Lean Methodologies - Resource Planning and Budgeting
- Orchestrating Deployment: DevOps (Hands-on/ Applications - DevOps)
- Project Finance, Budgeting, Valuation and ROI

Module 05

Cyber Resilience and Information Assurance

- Overview to Cyber Security Threats in an AI Era
- Cyber Vulnerability and Threat Management
- Audits of Cyber Security Initiatives
- Human Factors in Cyber Security

Module 06

Emerging Digital Technologies and Business Models

- Cloud Enterprise Systems and Quantum Computing in Enterprises
- Blockchain, Cryptocurrencies and Financial Technologies
- Digital Platforms and Platform Economy
- Leveraging Emerging Technologies for Digital Content Management in Search Engines -- Google case-study
- Mixed Reality (MR) and Extended Reality (XR)

Note:

-Modules/ topics are indicative only, and the suggested time and sequence may be dropped/ modified/ adapted to fit the total programme hours. Case studies, real world examples and numerical illustrations are an integral part of multiple modules included in the course.

-The primary mode of learning for this programme is via live online sessions with faculty members.

-Post session video recordings will be made available until the course duration.

Capstone Project

- Part A: Emerging Technology Deep Dive
- Part B: Emerging Technology Readiness Assessment

Forge Your Tech Leadership Path with a Collaborative Capstone Project

Supercharge your learning by tackling a real-world technology challenge or opportunity facing your organisation. In this team-based capstone project, you'll leverage the collective power of:

Classroom knowledge:

Apply foundational and cutting-edge tech concepts.

Expert insights:

Gain valuable perspectives from esteemed faculty and guest speakers.

Peer collaboration:

Learn and grow alongside diverse classmates.

Campus Immersion

This immersive experience combines cutting-edge technological education with hands-on leadership training, providing participants with a unique blend of theoretical knowledge and practical application. The immersion includes workshops, seminars, and real-world projects, guided by industry experts and IIT Delhi's esteemed faculty.

Together, you'll develop a concrete, actionable solution and create a strategic road map informed by expert and peer feedback. This immersive experience will refine your technology leadership skills and equip you to present your project's valuable learnings with confidence.

Tools Included

Note: All product and company names mentioned in this material are trademarks or registered trademarks of their respective holders. Their use does not imply any affiliation with or endorsement by them.

High-Impact Learning Journey

Deepen your Intellectual Capital

- World-class curriculum and teaching by leading faculty
- Peer-to-peer interaction and collaboration

Manage Your Brand Capital

- Industry-recognised, top-ranked IIT education on your resume

Enhance Your Career Capital

- Accelerate your technology leadership career with cutting-edge insights
- Learn while you earn, and make new life-long connections with experienced global peers

“The future of AI is going to be about creating systems that are not just smart, but also safe, ethical and transparent.”

-Mark Zuckerberg, Facebook

IIT Delhi is Ranked # 4 amongst Management Colleges in India (NIRF 2024)

Programme offered by Continuing Education Programme (CEP), IIT Delhi

Programme Certificate

Participants who score at least 40% in the evaluation components and maintain a minimum of 40% attendance in both lectures and tutorials will be awarded a completion certificate. Participants who are unable to score 40% in the evaluation components will be eligible for a participation certificate if their attendance is above 40% in both lectures and tutorials.

We encourage you to attend all the live sessions and make the best out of these interactive learning experiences. Post-session video recordings will be made available until the course duration.

Strategic Learning Outcomes

This programme doesn't just build proficiency in new technology. It also helps participants grasp the connection between technology, strategy, and operations, so they can run a competitive, efficient, safe, and resilient organisation in these volatile times, through the power of new technology.

Decide

Assess emerging technologies to outline new possibilities and create relevant action items for strategic advantage.

Disrupt

Integrate cutting-edge platforms and ecosystem strategies to solve complex business challenges and enhance innovation within your organisation.

Democratise

Cultivate an environment that encourages innovation, continuous learning, and adaptive thinking to stay ahead in the evolving tech landscape.

Thrive

Drive tech projects using agile methods, ensuring efficient delivery, strategic alignment and financial accountability.

Protect

Proactively identify, assess, and mitigate technology-related risks, ensuring robust cybersecurity and operational resilience.

“Generative AI is the most powerful tool for creativity that has ever been created. It has the potential to unleash a new era of human innovation.”

Elon Musk, Tesla

- If you wish to withdraw from the programme, you must email cepaccounts@admin.iitd.in and iitd.execed@emeritus.org, stating your intent to withdraw. The refund, if applicable, will be processed within 30 working days from the date of receiving the withdrawal request.

About IIT Delhi

The Indian Institute of Technology Delhi (IIT Delhi) is one of the 5 initial IITs established for training, research and development in science, engineering and technology in India. Established as College of Engineering in 1961, the Institute was later declared as an Institution of National Importance under the “Institutes of Technology (Amendment) Act, 1963” and was renamed as “Indian Institute of Technology Delhi”. It was then accorded the status of a Deemed University with powers to decide its own academic policy, to conduct its own examinations, and to award its own degrees. Since its inception, over 48000 have graduated from IIT Delhi in various disciplines including Engineering, Physical Sciences, Management and Humanities & Social Sciences. Of these, nearly 5070 received PhD degrees. The rest obtained a Master’s Degree in Engineering, Sciences and Business Administration. These alumni today work as scientists, technologists, business managers and entrepreneurs. There are several alumni who have moved away from their original disciplines and have taken to administrative services, active politics or are with NGOs. In doing so, they have contributed significantly to the building of this nation, and to industrialisation around the world. For more details, please visit: www.iitd.ac.in

About Continuing Education Programme

Executive Education is a vital need for the organisations to build a culture that promotes newer technologies and solutions and builds a workforce that stays abreast of the rapidly transforming needs to the technological, business and regulatory landscape. Committed to the cause of making quality education accessible to all, IIT Delhi has launched Online Certificate Programmes under eVIDYA@IITD (ई-विद्या@IITD): enabling Virtual & Interactive-learning for Driving Youth Advancement@IITD for Indian as well as international participants. These outreach programmes offered by the Indian Institute of Technology Delhi (IIT Delhi) are designed to cater to the training and development needs of various organisations, industries, society and individual participants at national and international level with a vision to empower thousands of young learners by imparting high-quality Online Certificate Programmes in cutting-edge areas for their career advancement in different domains of engineering, technology, science, humanities and management.
