Prof. B. K. Panigrahi

Dean, Student Affairs and

Professor, Department of Electrical Engineering

Dear Student,

Congratulations on your admission to IIT Delhi (IITD)! The Office of Dean, Student Affairs (ODSA) welcomes you to the Institute. By choosing IITD, you (and your parents/guardians/well-wishers) have already taken a major step towards your own holistic development. On one hand, your pursuit of academic excellence is guided by world class faculty through a state-of-the-art academic curriculum at IITD. On the other hand, your quest for self-discovery and growth is guided by teams of students and faculty through various avenues via the ODSA.

While providing an excellent academic environment, IITD allows for nurturing your existing (outside-the-classroom) skills/hobbies. Additionally, you will get ample opportunities to explore new activities. As you may be aware already, IITD has some of the best sports facilities (both indoor and outdoor). The facilities include a swimming pool, cardio gym, badminton, tennis and squash courts along with cricket, hockey and football facilities. If you are best in any one these, we have a strong student team that competes with peers of other IITs. In addition, there is also a very vibrant culture of music, theatre/drama, dance, fine arts, photography and literary activities amongst others. All activities are managed by students themselves, with faculty mentors assisted by very dedicated and able staff. We hope you will actively participate in as many IITD activities that appeal to you thereby not only enjoying but also contributing constructively to campus life.

Now, some information about hostel life at IITD: The hostel culture in our campus is very strong - bonds created in hostels will resonate throughout your lifetime. Starting with sharing rooms with your peers and learning how to live/operate together in teams, hostel life plays a major role in your transformation into responsible independent citizens of India and the world. All hostels have a very active social, cultural, creative and sports environment. Regular competitive and non-competitive intra- and inter- hostel events are organized by students throughout the year. These provide you chances to explore, and excel, in activities of your choice. It is also important for you to know that maintenance and upkeep of hostels, including operations of cooperative messes, are predominantly in the hands of students under the mentorship of wardens & associate wardens assisted by dedicated student-sensitive staff. Please do reach out to your peers, BSW reps, hostel caretakers, hostel wardens associate wardens, and counsellors near hostels for any assistance.

The freedom you experience at IITD also comes with responsibility. During your stay in the IITD campus, you are expected to maintain a decorum at all times, so as not to disturb or offend the sensibilities of other members of the community (students, staff and faculty, families). Being mindful of your own safety as well as the safety and privacy of others in the campus (including hostels) is mandatory. You are requested to follow all rules and regulations that are put into place from time to time regarding taking leave, on-boarding, de-boarding, room vacation, entertaining of guests etc.

The cosmopolitan environment in IITD helps you inculcate values of respect without prejudice and unconditional tolerance that will serve you for life. Student bodies provide feedback based on the inputs from students on academic and non-academic matters. Involvement of students through various elected bodies ensures that the integrity of the system is not disturbed by personal opinions/biases of any individual. Thus, it is important to appreciate/follow the systems and hierarchies put in place, while improving their operations by addressing limitations through proper processes.

Finally, it is important to emphasize that the whole system at IITD is geared towards ensuring your mental and physical well-being. While we have a hospital in the campus with certain basic facilities, there is also counselling service available for the mental well-being of the students. You can avail these facilities free of cost in the campus. The ODSA is fully committed to meet the needs you may have from time to time. In case you need any help or support with non-academic/campus matters, please feel free to reach out to us. Student Mentors, from amongst existing students, have been allotted to help you start your journey. Please be in touch with your mentor regularly, for any type of help or guidance with respect to academic or campus life. We wish you all the success in your endeavours and look forward to receiving you on campus.

Best wishes,

Prof. B. K. Panigrahi
Dean, Student Affairs

Prof. Prabal Talukdar
Assoc. Dean, Hostel Mgmt.

Prof. Sreedevi Upadhyayula
