CERTIFICATE PROGRAMME IN PROJECT MANAGEMENT

Starts December 28, 2022 | 6 Months | Live Online Sessions

Programme offered by Continuing Education Programme (CEP), IIT Delhi

OVERVIEW

Business growth across domains hinges on effective project management. But inaccurate forecasts of project time, costs, and resources dampen innovation and inhibit success. The proliferation of digital technology has accelerated change, increased the frequency and occurrence of projects, and forced a need to enhance and rethink project management skills. Organisations put their power behind professionals with a versatile skill set who can manage change and achieve project goals on time and within budgets.

IIT Delhi's **Certificate Programme in Project Management** will help you understand project management concepts and principles and deliver projects with a precise focus on time, budget, and quality. It will introduce you to the tools and techniques used for comprehensive project management – from its initiation to closing. Enrolling in this programme will equip you with robust planning abilities, the capacity to set clear goals and realistic objectives and achieve them with a single-minded determination.

WHO IS THIS PROGRAMME FOR?

- **Recent Graduates and early professionals** who are working or aspire to work in Project Management roles
- **Managers** without any formal qualification in project management who would like to learn and gain state-of-the-art project management and scheduling skills
- **Professionals across industries** who want to deepen their competence through advanced project management tools and techniques
- **Consultants** who want to absorb the latest project management tools and techniques to suggest pioneering project management solutions to their clients and master the art of delivering projects on time
- **Entrepreneurs and investors** who would like to allocate resources efficiently, identify profitable opportunities and rehash their existing business processes using project management principles

The global economy needs 25 million new project professionals by 2030. To close the talent gap, 2.3 million people will need to enter PMOE every year just to keep up with demand – this includes project managers and all changemakers.

(PMI, 2021)

PROGRAMME HIGHLIGHTS

Live Online Sessions

Immersive Pedagogy

Peer-to-peer Learning

Real-world Business Applications

Industry Case Studies

LEARNING OUTCOMES

Understand the project management trajectory from defining the project scope to closure

We use the Zoom software application to conduct live online classes. Zoom works on a variety of PCs/ Laptops/ Mac systems and also on phones and tablets.

You can join your live online class from a phone or tablet if it supports the Zoom client.

We recommend that you attend classes from a PCs/ Laptops/ Mac.

ABOUT IIT DELHI

The Indian Institute of Technology Delhi (IIT Delhi) is one of the 5 initial IITs established for training, research and development in science, engineering and technology in India. Established as College of Engineering in 1961, the Institute was later declared as an Institution of National Importance under the “Institutes of Technology (Amendment) Act, 1963” and was renamed as “Indian Institute of Technology Delhi”. It was then accorded the status of a Deemed University with powers to decide its own academic policy, to conduct its own examinations, and to award its own degrees.

Since its inception, over 48000 have graduated from IIT Delhi in various disciplines including Engineering, Physical Sciences, Management and Humanities & Social Sciences. Of these, nearly 5070 received PhD degrees. The rest obtained a Master’s Degree in Engineering, Sciences and Business Administration. These alumni today work as scientists, technologists, business managers and entrepreneurs. There are several alumni who have moved away from their original disciplines and have taken to administrative services, active politics or are with NGOs. In doing so, they have contributed significantly to the building of this nation, and to industrialisation around the world. For more details, please visit: www.iitd.ac.in

ABOUT CONTINUING EDUCATION PROGRAMME (CEP)

Executive education is a vital need for the companies to build a culture that promotes newer technologies and solutions and builds a workforce that stays abreast of the rapidly transforming needs to the technological, business and regulatory landscape.

Committed to the cause of making quality education accessible to all, IIT Delhi has launched Online Certificate Programmes under eVIDYA@IITD (ई-विद्या@IITD): enabling Virtual & Interactive-learning for Driving Youth Advancement@IITD for Indian as well as international participants. These outreach programmes offered by the Indian Institute of Technology Delhi (IIT Delhi) are designed to cater to the training and development needs of various organisations, industries, society and individual participants at national and international level with a vision to empower thousands of young learners by imparting high-quality Online Certificate Programmes in cutting-edge areas for their career advancement in different domains of engineering, technology, science, humanities and management.
